Customer Count Matrix

How many customers at each tier for target ARR?

ARR TARGET	\$499/MO STARTER	\$2K/MO TEAM	\$12K/MO ORG	\$50K/MO ENTERPRISE
\$1M	167	42	7	2
\$5M	835	208	35	8
\$10M	1,670	417	69	17
\$100M	16,700	4,167	694	167

Key insight: Starter is the WEDGE, not the target. The play: land 50+ Starter, convert 15% to Team quarterly, Team/Org carry the ARR. Realistic Y1 blended: 30 Starter + 8 Team + 2 Org = \$55K MRR (\$660K ARR).
